3<sup>rd</sup> – Kelseva Greatest Day

**Minor Puppy Dog** (6, 0 Abs)

1st Rhiconich Rhys

Pleasing tri dog, good reach of neck and bend of stifle, straight front. Longer caste than 2. Lovely head with soft gentle expression and dark pigment. Good bend of stifle. Feet just need to tighten a tad. Moved well with happy outgoing temperament.

2nd Bellvalley McNicol

Of pleasing size and balance, blanket tri dog more compact than 1. Dark eye and pigment, good reach of neck and shoulder. Nice shape. Straighter in stifle than 1. Hind movement wasn't his best today, perhaps moving too fast?

3rd Julemark Artful

Well made workmanlike hound. Has matured a lot since I last saw him. Masculine soft expression, good round bone leading into correctly shaped feet. Good depth of chest and well shaped quarters. Pleasing hind movement whilst carrying correct stern carriage.

2nd Redcap The Patriot

This exhibit did his best not to co-operate with his handler. Smaller mould to 1. Nicely made T/W hound, pleasing head shape and pigment. Good length of neck and depth of chest.

3rd Fallowfield Evolution At Hardexspen

### **Limit Dog (7, 0 Abs)**

Very close between these two exhibits.

1st Bellvalley Teenspirit RCC

This boy is not overdone and as such doesn't catch the eye immediately. Has a balanced outline, masculine head with a pleasing gentle expression. Preferred his reach and movement to 2. It's all there. I just wish he'd put a bit more oomph into his 'display'.

2nd Janfrey Bosley

Shown free. My eye was drawn to this very smart tri dog. Slightly shorter in body than 1 but preferred 1's movement in front.

3rd Bondlea Layman
